Dylan Hudson

Data Scientist | AI Engineer | Team Leader

Selected Professional Experience

Data Scientist & Threat Intelligence Lead

Enzoic / Full-time / Boulder, CO / Nov 2019 – present

- **Developed an industry-leading threat intelligence program,** including cybersecurity research processes, infrastructure development, documentation, and hiring/training.
- **Automated ETL operations, designed, wrote, and deployed Python applications increasing data throughput over 100x**
- **Designed, developed, and deployed containerized ETL system, minimizing total pipeline time and compute costs.**
- **Led internal and external cross-team collaboration,** participated in webinars and podcasts, and orchestrated multi-org machine learning research projects.
- **Designed and prototyped LLM API integrations** for data analysis pipelines, including prompt engineering and evaluation.

Data Scientist

CCJ Medical Devices / Part-time, Remote / Jan 2020 - June 2024

- **Co-wrote grant proposals successfully awarded over $1.2 million** in SBIR funds by **DARPA**.
- **Conducted experiment design, data analysis, and visualization** of test fixture flow sensor data, and wrote bimonthly reports for program leadership.
- **Decreased R&D iteration time by 70% by designing and building AWS infrastructure and automation** for OpenFOAM computational fluid dynamics simulations.

Bioinformatics Consultant

Remote / Ad-hoc / 2019 - 2024

- **Aligned fungal genomes,** and wrote Python scripts to clean raw Illumina read data for UGA plant pathology researchers.
- **Wrote Python applications** to process and score maize ear images and advised researchers at University of Florida on designing and implementing a **data acquisition system and machine learning pipeline for maize & pathogen GWAS**.

Logistics Team Lead

Tufts University / Medford, MA / June 2018 – Sept 2019

- **Wrote Python scripts** to automate 911-system VOIP gateway provisioning tasks.
- **Managed team of 4 employees** for front-facing parking, fleet, and access control operations.
- **Used parking session data to model new pricing structures** adopted by leadership to increase lot revenue by $20,000 annually.

Education

Master of Science, **Data Science -** *In progress*
University of Colorado Boulder, expected graduation Spring 2027

Post-Bacc. Certificate, **Computer Science**
Tufts University, Feb 2019

Bachelor of Arts, **Ancient Greek**
*with **College Honors.***
University of Vermont, May 2013

Publications & Presentations

*Hudson O, **Hudson D**, Ji P, Ali ME. Draft Genome Sequences of Three Fusarium oxysporum f. sp. niveum Isolates Used in Designing Markers for Race Differentiation. Microbiol Resour Announc **2020**: 9(42):e01004-20.*

*Hudson, O.; **Hudson, D**.; Brahmstedt, C.; Brawner, J. The Ear Unwrapper: A Maize Ear Image Acquisition Pipeline for Disease Severity Phenotyping. AgriEngineering **2023**, 5, 1216-1225. https://doi.org/10.3390/agriengineering5030077*

Invited Speaker, *Medium Day 2025*. Delivered virtual lecture "*Understanding Generative AI"*

Teaching

Teaching Assistant - CS 160: **Algorithms - Tufts University**, Spring 2019
-Held office hours for one-on-one and group instruction in algorithm analysis and proofs
-Graded exams and homework
Writing Tutor - UVM Writing Center, 2012 - 2013
-Tutored students of all disciplines in composition, style, and grammar.
-Writing-in-the-Disciplines Mentor for Philosophy/Classics: Plato

Programming Languages:

Primary*:* **Python, R**
Past Experience: **C, C++**

Professional Certifications:

Project Management, Google/Coursera, Spring 2025
